

Sun Circles is a collaborative blend with Shawn Kalis of Ruse Brewing. The beer is a 50/50 split of light saisons, each aged in a single wine cask with fresh nectarines and his house brettanomyces yeast at our respective breweries. The idea was born from a mutual admiration of each other's work and a love of fruit beers and saisons with balanced flavors. The Sun Circles opens with a deep aroma of ripe nectarines, followed by light yet distinct malt flavors and an attractive and appetizing blend of esters and phenolics. The beer is drinking great now and we encourage folks to enjoy it within the year, while the fruit shows brightly.
